Q2

Please comment on Half-Moon Slough Boating Regulations

It's seems if there have been no accidents or erosion created by wake, it would be unnecessary and burdensome to create a rule or regulation governing speed and access.

Q2

Please comment on Half-Moon Slough Boating Regulations

Dear sirs, thank you for considering my comment. Please defer to the half moon Slough working groups recommendations and move forward with the designation of Halfmoon Slough as a no wake zone and also with the seasonal closure for March 1 through April 15. The the opportunity to enjoy quiet areas is diminishing in Montana, and throughout the world. Please do not dish regard. The unanimous recommendation put forward by the working group that you guys put together. If you were ignore their recommendations, think of the public trust that you would lose. Thank you for listening to my thoughts. Sincerely, Andy Roubik.

Land Owner" comment to Half Moon Slough

We the land owners of Half Moon Slough ask that you approve the no wake zone petition that was presented to you in October of 2022.

We went by the departments' recommendations, formed a citizens local working group and after presenting all the facts and photos unanimously voted to approve the no wake zone. We presented many photos of erosion of the bank that is dangerously approaching Egan Rd and Sibley Lane.

The Department did not contact us or involve us in showing or discussing the erosion issue. This petition is not about recreational boating or boating safety. We just want to protect our land.

Again, please approve this small body of water and land in a no wake zone.

On behalf of the land owners.

Thank you

Emmett Quigley
